Users can switch their apps on the display quickly by Universal Flash Storage (UFS) memory which increases the speed of operation.

Fast, stable communication network support VX500 provides superior voice quality, stable connectivity, and clear communication based on Bluebird's innovative technology. The device also provides improved Wi-Fi speed and broader range of networking with applying MU-MIMO technology.

Powerful durability in the harshest environments Usability-proven in touch and harsh environments Bluebird TankSmith® Technology and Corning® Gorilla® Glass 5 enhance durability of the device meeting 2.0m of drop spec MIL-STD 810 (with Rugged Boot) and IP68 Sealing rate. VX500 provides flexible multi-touch including glove, wet, and stylus as well as the best outdoor readability that you can see the display under the very bright sunlight.

High performance barcode scanner for quick data capture The latest scan engine provides superior wide range up to 24-inch/60cm for 1D/2D barcodes, labels, and documents. Workers can scan even poor quality, damaged and dirty barcodes. It delivers lightning fast barcode scan with motion tolerance providing fast scan on pressing the scan button. Large sweet spot makes workers can scan easily with point-and-shoot simplicity.
