

FZ-G1 MPOS SOLUTION

Model Number: CF-CDSG1PD01/02/03

A special casing surround for the Toughpad FZ-G1, designed to hold Ingenico iSMP4 and Verifone e355 payment devices (Ingenico and Verifone devices not included).

The casing is designed to allow easy access to the battery compartment on the FZ-G1 and also for simple removal of the payment devices. The casing also has integrated stylus holder and shoulder strap fixings.

Slotting seamlessly into the casing, the Ingenico payment device connects to the tablet via USB to enable reliable pairing and charging of the iSMP4, while the Verifone e355 device connects by Bluetooth and is charged separately.

Key Features

- Designed specially to fit the Toughpad FZ-G1 only
- Fits FZ-G1 with standard corner guards and standard battery
- Casing accommodates Ingenico iSMP4 and Verifone e355 payment devices only (additional adaptor plate required for Verifone e355 device)
- Payment device easily removable
